

The New Jersey do not call list has been a valuable asset in our home. Prior to signing-up for the Do Not Call List my home was bombarded with telemarketers and mortgage companies calling from 8 am to as late as 8pm. Saturdays were no exception it had gotten to the point where we would not answer the phone until the caller left a message to insure it was someone we wanted to speak to. The other way was to watch the caller id to see if it was a number we recognized. I am sure that receiving unwanted calls at 8am on a saturday is not how you would like to be awakened. At dinner the phone had to be turned off in order to get through dinner with out interruptions. This is how our lives were before the law went into effect, do not bend to pressure from lobbyist from the telemarketing industry, standup for the average citizen who has had enough from rude, persistent and annoying sales calls.
